

Projects

Houston's First Baptist Church

Houston, TX

After 30 years of use, Houston's First Baptist Church felt it was time to update their worship center. Working in collaboration the theatre consultant on the project was Bill Conner Associates and the architect was Studio Red Architects.

The \$12 million Houston's First Baptist Church renovation featured a new design to correct problems of poor lighting and acoustics in the 1970s church. The project encompassed seat-

ing layout and replacement, a new platform, an updated choir configuration, audio/visual system.

Texas Scenic Company was selected as the stage equipment contractor for the church renovation. A custom fabric ceiling treatment was manufactured and installed by TSC along with platform curtains and curved curtain tracks.

A custom motorized rigging system was provided for the doors that open to reveal the updated baptistry. TSC also installed a new theatrical dimming and control system.
